Express International Group commenced business in Egypt in 1970, and due to this long experience in the forwarding field and the considerable volumes executed during these years, our group gained strong bargaining power with the shipping lines. This enables the group to provide customers with best available export rates in the market, as well as booking priorities.

We have a unique network of powerful agents all over the world. This strong structure with the global coverage enables EIG to provide customers with best efficient and professional door / door service for (FCL & LCL) Shipments from any where in the globe.

Thanks to the trust of our customers, we achieved huge volumes during the last 50 years and were nominated as no 1 customer for many airlines. This position guaranteed booking priorities and the best air freight export rates granted by most airlines in Egypt. EIG has its own offices located inside Cairo Airport ensuring close follow-up to airfreight import/export operations.

We provide Port-to-Door service with ocean freight and inland transportation, or Door-to-Door service where we control the shipment from order availability and perform complete routing and scheduling for all legs of the shipment.

We further provide financial control -- landed cost computation and compliance to-plan, demurrage accounting, timely container return, and complete document management. Customs clearance within MENA is a key issue, and Express is your expert.
